description

While currently studying my 4th year of Mathematics at UPC, I'm looking forward to starting my career in Quantitative Analysis. I'm eager to apply my knowledge base to real use cases, and to learn new tools and strategies for problem-solving

I love how mathematics allow us to understand reality, and how it helps us to make sense of the challenges we face in an abstract plane, as to better solve them. I'm particularly interested on the ways the translation from mathematics to reality can be implemented, especially in software.

experience

- | | | |
|-----------------------|---|--------------------------------------|
| sep 2026–
current | AI intern
<i>Implementation of AI tools in teaching,
particularly in Algebraic Structures course.</i> | Universitat Politècnica de Catalunya |
| mar 2026–
jul 2026 | Robotics teacher
<i>Teaching robotics and science to children of all ages,
making STEM fun and easy to understand.</i> | eXplorium |
| feb 2026–
jun 2026 | Teacher's Assistant
<i>Support faculty in Differential Calculus course,
grading of works and giving extra classes.</i> | Universitat Politècnica de Catalunya |
| jan 2024–
dec 2025 | Freelance Tutor
<i>Help and support to highschool and university student,
plus preparation of extra study materials and guides.</i> | self-employed |

education

- | | | |
|-----------------------|------------------------------------|--------------------------------------|
| sep 2023–
current | B.Sc. Mathematics | Universitat Politècnica de Catalunya |
| sep 2021–
jun 2023 | International Baccaulareate | Institut Moisès Broggi |
